

Ingenuity Needs an Organization

GLOBAL PETER DRUCKER FORUM 2026

This series accompanies the 2026 Global Peter Drucker Forum theme, Next Gen Innovation — When Everything Depends on Ingenuity. It begins with a simple proposition: ideas do not become innovation through individual brilliance alone. They require an organization capable of noticing, receiving, testing and carrying the new. Clarity Before Change provides the connecting thread. It asks leaders to make the organization visible before adding another initiative to it.

Contents

1 When Everything Depends on Ingenuity What Does Ingenuity Depend On
The organizational conditions behind individual inventiveness

2 The Idea Is Visible The Organization Behind It Is Not
Why leaders need to see the system that receives the new

3 Innovation Is Not a Department It Is a Pattern
How recurring management conditions shape innovative capacity

4 Can the Organization Receive the New
Why recognition absorption and integration matter as much as invention

5 AI Multiplies Possibility It Does Not Create Clarity
Why faster answers increase the need for human judgment

6 The Executive Team Where Ingenuity Is Amplified or Silenced
How leadership conversation determines what can become thinkable

7 From Ingenuity to Capability Experiment Before You Transform
Why small deliberate experiments create evidence before commitment

8 What Vienna Made Visible
A reflection on the organizational conditions behind ingenuity
